BRAWL ON SHIP TAKES A TOLL OF NINE LIVES

OFFICERS SEEKING MEN FOR RESERVE

Army and Navy Men In
Twin Cities To Offer
Enlistments

ASK AID FROM 2 CIVIC BODIES

Adequate Preparation
Best Defense Says
Colonel Moorman

For a few days the people of this community will have the privilege of hearing the provisions of the national defense act, as passed by Congress, explained to them by Col. Thomas S. Moorman, U. S. A., with headquarters in Birmingham and Lieutenant J. H. Smith, U. S. N., with headquarters at Birmingham, who are here on an official visit.

Before the departure of these officers they are expected to ask one or more civic bodies here to have military and naval affairs committees appointed, to assist in carrying out the provisions of the national defense act, Lieutenant Smith stated this morning.

For a portion of the day the visitors have remained at the offices of Captain Joe Wood on Second Avenue.

When seen there Colonel Moorman said that the law required each state and division thereof to furnish a certain quota to the civilian or reserve military establishment.

Colonel Moorman stated that Joe Woods, Frank B. Skeggs and E. R. Guy were now a part of the organization.

For the Navy.

Lieutenant Smith stated that the Navy was allowed a quota of about 108,000 officers and men and that now the enlistment papers showed that the navy had only about 86,000 enlisted men and officers.

Mr. Smith said it was his duty as chief enlistment officer in Alabama to encourage and aid a larger enlistment.

Both officers said they considered aid of the press indispensable in arousing the people to the need of adequate preparation as the surest defense against war. It was pointed out that just as a strong, able bodied and prepared man was not attacked, neither would this country be attacked if it were prepared.

Colonel Explains

Colonel Moorman explained that officers who may enlist in the reserve corps are not subject to duty unless in a “national emergency.” They are expected to take 15 days training each year when they receive full pay and allowances of the rank at which they are commissioned, but attendance at the training camp largely is a matter of decision of the reserve officer himself. Interference with business of the officer or any good reason, is sufficient to excuse from attendance, it was stated. Reserve officers also are kept in touch with military developments by means of a correspondence course.

Enlisted men who served at least four months during the war may enlist in the reserve for one year. Men who have served in the regular army or national guard are required to enlist for a period of three years. War veterans may be discharged, upon application, within 90 days. Enlistments will be made in the reserve in the same grade as the person enlisting held in the army previously.

Mrs. Marshall Field III

Mrs. Marshall Field III, beautiful wife of scion of the famous Chicago merchant prince, is said to be the most heavily insured woman in the world, having just taken out policies which bring the total of her insurance up to \$2,000,000. The policies are divided among 24 life insurance companies.

CHINA ‘CARRIES ON’ WITHOUT PRESIDENT

(Associated Press.)

PEKING, June 14.—With the executive branch of the Chinese government disorganized by the flight of President Li Hung and the resignation of the cabinet, the semblance of a national administration was being carried on today by five representatives of the various ministries.

Shen Jui-Ling, vice minister of justice, and representatives of the department of finance, navy and foreign affairs, met last night and agreed to carry on a provincial government as much as they were the legal delegates to parliament.

They decided to request Premier Chang Shao-Sung, who with his cabinet resigned on June 6, to return and resume office. Police officials and troop commanders met the ministers and promised that order would be maintained in the capital.

Last advices from Tientsin reported that Li Hung, who fled to that city, his home, when threatened with military invasion of Peking yesterday, was a prisoner in the railway station, held aboard a special train pending search for the government's seals which he was said to have taken from the capital.

The first day of the rudderless Peking government passed with the city apparently peaceful.

Red Cross Seeking An Ex-Service Man

County Red Cross and county health unit authorities are searching for former serviceman, Joel Wright, who has been under the care of these organizations.

Wright was sent on an errand near the Wilder place recently and has not been seen or heard of since.

Miss Ella Dale, county nurse, recently went to Wright's quarters to take him food and medicine at a small houseboat on the Tennessee river, but found the ex-service man had not returned.

FARMERS HOPEFUL OF BETTER CROPS

(Associated Press.)

“Now is the seasonal busy time with the farmers where I have been,” stated W. R. Spight this morning. “The farmers are making crops while the sun shines and they are making the grass a back number out on the Courtland pike and along other country roads I have traveled of late.”

Mr. Spight said he had talked with a number of farmers and that all said they were hopeful of good crops.

It is pointed out that in 1919 we had just such a wet early season as we have had this year but that all crops were large in 1919 when gathering time came.

The boll weevil is more to be feared now than in 1919, however, and if the months of July and August are wet months it is believed the weevil will play havoc with cotton; but if it turns off hot and dry the cotton will survive the ravages of the weevil. One reason we had so much cotton last year was because the summer proved to be a very warm one.”

Mr. Spight said much of the cotton he had seen looked fine and as far as the corn crop it was declared to be in good shape except in the low lands where the rains have kept the land too wet to plow.

It is the opinion that corn can be cleaned up and worked successfully as late as July.

Plans Being Made For Celebrating 4th

At an enthusiastic meeting of the Morgan County post of the American Legion held at “Linger Longer Lodge” last night, it was agreed that July 4 would be observed by the Legion with celebration to be held at Linger Longer Lodge the day of July 4.

It was planned that the dinner of the occasion should be made “self supporting,” so to speak and tickets for the spread are to be put on sale and only those holding tickets are to be admitted, officials of the Legion stated this morning.

Addresses were made to the members last night by Col. Moorman of the Army and Lieut. J. H. Smith of the Navy.

FLAG RAISED AT ROOSEVELT GRAVE

Minute Men Are Gone,
Bolshevist’s Present
Executive Declares

(Associated Press.)

OYSTER BAY, N. Y., June 14.—The minute man has disappeared and no one is on guard to protect the flag and the constitution, Governor Parker of Louisiana, declared today at the flag day services of the Elks, held at Theodore Roosevelt’s grave.

“The flag is being attacked at its foundation,” he said, “by long haired anarchists, bolshevist hounds and by a body of men working under cover, mask and cowl, who would create religious prejudice and utterly destroy the principles for which the great founders of America unceasingly fought, while an indifferent public is engaged in riotous jazz, unheeded, unmindful of the undermining that is going on.”

“Two pictures loom before me today. One is of the constitution representing the foundation law upon which this republic is built. Before the solid foundation stands the minute man, arms resting on his long-barreled rifle. He is on guard and alertly on guard. The second picture shows the Bolshevik and anarchist of today and the men under masks and cowl.”

The remedy for this condition, the governor said, “is to supplant destructiveness with constructive Americanism.”

MISSISSIPPI FARMS HOLDING INTEREST

Alabama farmers are taking interest in the happenings and developments of their sister state, Mississippi, agricultural officials here say.

Along this line a recent report from the United States department of agriculture at Washington has something to say of the good work in Mississippi in sweet potato field cleaning.

Since the first of the year representatives of the Bureau of entomology of the U. S. department of agriculture have been advocating that sweet-potato fields in Mississippi which have been infested with the sweet potato weevil should be cleaned up and all scraps of tubers, vines, crowns, and general rubbish burned.

A total of more than 180 farms,

aggregating more than 175 acres of potato fields, has been thoroughly cleared of rubbish. The Mississippi state plant board furnished for the joint use of the state and federal government’s men who acted as the foremen of crews, and this board also paid for the day labor. Regular day laborers were hired to do most of the plowing and raking. The Bureau of Entomology was in charge of the different territories.

“In most instances the fields were plowed with an ordinary turning plow, all vines and waste material being turned over near the top of the soil. The field was cleared, the rubbish put in piles, saturated with coal oil and burned.

It is the opinion that corn can be

cleaned up and worked successfully as late as July.

Lower Stage In River is Predicted

FORT SMITH, Ark., June 14.—The major crest in the Arkansas river flood has passed West Tulsa, P. J. Shipman, weather bureau observer here and river forecaster for the district, including Tulsa, announced today.

LITTLE ROCK, Ark., June 14.—The weather bureau here today issued a revised flood prediction, lowering the predicted stage for Little Rock and Pine Bluff by one foot. The new forecast says the river will reach 27 feet at Little Rock Sunday and 29 feet at Pine Bluff Monday.

These stages are below those of February, 1916.

NEWMAN ON TRIAL IN FLOGGING CASE

By Associated Press

BIRMINGHAM, Ala., June 14.—Porter N. Newman, Acipico plumber, was placed on trial today in circuit court before Judge Harrington P. Heflin, on charges of kidnaping and assault with intent to murder in connection with an attack on Dr. J. G. Dowling, city and county health officer in May, 1922.

Striking of the jury occupied but little time and witnesses were immediately called. Dr. Dowling was the first witness. His testimony followed practically the same line of evidence that he gave during the trial of E. G. Jacks, Katona dairyman, several weeks ago when Jacks was tried and acquitted on a charge of kidnaping.

The story told today in Chinese to an interpreter was of a pitched battle with axes, pistols, marin spikes and belaying pins. It was precipitated it was believed, by the failure of the skipper to carry out his part of the bargain with the Orientals.

Up and down the deck of the schooner the fight waged until the white paint was covered with blood and four British sailors and five Chinese lay hacked and beaten to death. The survivors heaved the dead over the side.

The remaining 15 Chinese, though ignorant of the sea and ways of ships, were favored in the ensuing days by fair weather. The craft drifted aimlessly, its larders emptied. A distress signal was hoisted to the masthead and it was this that attracted the attention of Pilot Hall of Sandy Hook yesterday.

It was after the owner of the vessel had abandoned her that the fight occurred. Some of the Chinese declared the trouble was started by members of the crew who tried to extort more money from them in order to carry out the skipper's promise to land them.

MY VACATION

WHERE, WHEN, AND HOW

“I am not starting on my vacation but am just returning,” said Postmaster W. E. Crawford this morning. “My wife and myself, T. M. Jones, his nephew, Fall Roberts and a number of Huntsville friends, are just back from Camp Walton, Fla., on the Gulf Coast, about 75 miles west of Pensacola. We returned as we went, part of the way in automobiles. I do not want to ‘knock’ our state roadways but the road that should be the best, namely one to the state capital, seems to be the worst one, especially south of Birmingham.

“We are glad to notice, however, that road building and road repair is going on all over the state as far as I could see. To give some idea of what a ‘slow’ road we have from Montgomery to Birmingham, it took our party from 11 o’clock one morning to 8:30 that night to reach the Magic City from the capital.

“At Camp Walton we had excellent roads, and the land about the camp did not seem like dirt; it was so white and clean looking. The sand close to the Gulf, where we were looked more like salt than sand.”

In speaking of her vacation Mrs. Roy Horton said: “In a few days I hope to start for a visit to my niece, Mrs. Hugh Crossley, at Orchard Ranch, in Wyoming, where I will remain for several weeks and expect to have a perfectly delightful time. I expect to stop off at Denver, Colo., for a visit to Mrs. James Shelly at the military camp there where her husband holds a commission as colonel. Many here will remember Mrs. Kelley before her marriage as Miss Nannie Palmer. I am already beginning to live amid the inspiring scenes of the Rockies,” concluded Mrs. Horton.

WE FAVOR ACCEPTANCE
OF HENRY FORD'S BID
FOR MUSCLE SHOALS.WAIT FOR THE REACTION AGAINST
THE ANTI-PROHIBITION MOVEMENT.

A great many evils will follow the efforts of the anti-prohibitionists to make "repealers" out of the rank and file of the people but the country will remain dry. There may be those who believe the people generally will agree to be led into the slough of despond—the home of Barleycorn and his devotees, there to remain—but such are doomed to disappointment. All who expect the American people to turn back, having once put their hands to the plow of moral progress, will be as certainly grieved and disappointed as were the misguided ones who expected the Prussian eagles to triumph in the World War.

The fact is, none have turned back who marched honestly with the triumphant prohibition forces. Those who are for breaking down the Eighteenth Amendment were always of the same mind they are today. They are gaining no converts from the genuine prohibition element. The enemies of Barleycorn who were his enemies indeed and in truth, are still his enemies.

Those who by indirection would make of no effort the Eighteenth amendment know they are taking little or no risk. And if for no other reason, since they are risking nothing, they are gaining no applause.

There will ever be applause for rebels, however wrong they may have been, or however foolish their cause, provided they risked their lives and their property, but what praise can come for the "repealers" of the prohibition laws, who risk nothing?

The vast majority of the people of the United States, both men and women, believe that this country gained its greatest moral victory when prohibition was established as the law of the land. A writer in the "International Interpreter," published at 268 West Fourth Street, New York, has the following to say at the close of a long editorial calling attention to the significance of

NOTICE

Notice is hereby given that I will apply to the Legislature of Alabama at the session beginning July 10th, 1923, for the passage of the following local bill:

AN ACT

To provide for the institution and prosecution of misdemeanors in the County Court for Morgan County otherwise than by indictment by the Grand Jury and by affidavit made before the Judge of said Court.

Section 1. Be it enacted by the legislature of Alabama, That from and after the passage of this Act prosecutions of persons charged with misdemeanors in Morgan County may be begun by affidavit made before the Clerk of the Circuit Court of Morgan County, and that thereupon jurisdiction of the County Court of Morgan County shall attach, and the same shall proceed to trial and judgment under the same rules and procedure as provided by law in misdemeanor causes in the County Court of Morgan County.

Section 2. Nothing in this Act shall be construed as to in any manner interfere with or effect the prosecution for misdemeanors upon indictment found by the Grand Jury of Morgan County, or by affidavit made before the Judge of the County Court for Morgan County.

Section 3. This Act shall take effect upon its approval by the Governor. T. C. ALMON, Solicitor for the County Court for Morgan County. J 7-14-21-28 advt. ler.

The great problem for such people is first to get back an appetite, and at the same time digest the increased food eaten. Chiropractic Adjustments enable the dyspeptic to eat more, and get more benefit from the food eaten, and without the distressing symptoms of indigestion.

TURN OUT FINE VIOLINS PRAGUE, June 13.—Favored by a natural love of music, a plentiful supply of the right kind of resonant wood, and deft craftsmanship, the violin making industry in Czechoslovakia is assuming an important position.

Something like 4,500 homeworkers are engaged, and the instruments all are of high quality. One hundred and thirty-three thousand violins were turned out in 1922, besides 2,100 cellos and 1,200 double basses.

KIWANIS TO MEET

Albany Kiwanis Club will meet Thursday night at the Y. M. C. A. The meeting will be composed of the membership only.

MOVING PICTURES HELPFUL IN EDUCATING FOREIGNERS

CHICAGO.—Educating foreigners by use of the motion picture is being adopted more and more each day and has served to cause deep thought on the part of the leading educators and immigration authorities of this country, according to Jaroslav J. Zmrhal, district School Superintendent of Chicago, in a statement made to the Society for Visual Education here.

"There has been a noticeable increase in the attendance at our night classes and lectures on citizenship since motion pictures have been available," declared Mr. Zmrhal.

"The men found the screen answering their questions in a way they could easily understand. Those who were working for their naturalization papers were particularly delighted with these lessons in picture language."

U. S. BUYS SHIPS FROM SWEDEN

STOCKHOLM.—An order for two passenger motorboats for Pacific Coast service has been placed with a Gothenburg shipyard by an American company. The vessels will be entirely furnished and completed in Sweden. They will be of 3,000 tons each and will have a speed of 18 knots an hour.

This is the first order ever placed in Sweden by American firms for large ships.

KABUL NOW HAS TELEGRAPH

KABUL, Afghanistan.—The first telegraph line connecting Afghanistan with the outside world has been officially opened. It runs from Kabul, the capital, to the city of Peshawar in northwestern India. Formal greetings between the Amir of Afghanistan and the King-Emperor of India, George V, were the first messages sent over the new wires.

BAND TO REHEARSE

There will be a rehearsal of the Albany-Decatur concert band this evening at the rooms of the Albany-Decatur chamber of commerce, it was announced this morning. The full membership is expected to attend.

WITNESS COMES HERE

Frank D. Lewis of Sheffield, came as a witness to testify in the circuit court due to open June 11, but had not read his Daily carefully enough to see that Judge Kyle had set the court's opening forward. "I am going to read my Albany-Decatur Daily more carefully in future for if I had read it carefully lately, I would have saved myself a lot of trouble and some money," said the former Twin City man.

Section 3. This Act shall take effect upon its approval by the Governor. T. C. ALMON, Solicitor for the County Court for Morgan County. J 7-14-21-28 advt. ler.

THE GOOD TIME COMING

An official of the Weather Bureau says it will soon be possible to foretell the weather for a month, and we have no doubt that the time will come when we can know for a certainty in January weather it will be warm in July or not.

Voice of People**VOICE OF THE PEOPLE**
An Explanation.

Mr. Editor:

In your Tuesday's issue you carried an article entitled "Union Revival is Planned for Fall." As chairman of the Pastor's Union and pastor of one of the churches I wish to say, in the early part of the year the pastors had discussed the question of how they would hold these revivals this year. As there had been a recent union meeting and only last year a tabernacle meeting that was partly union, it was decided for each pastor to hold a meeting in his church yet cooperating as far as possible in doing so. Following this plan Central Methodist secured helpers and carried out a very successful meeting.

In your article you spoke of the vote for the union meeting being "almost unanimous." Your article may lead to a misapprehension I will say for the reason that our meeting had been held and our plans had been laid for the rest of the year I deemed it unwise as a business proposition or best as a church policy to place a congregation under obligation to carry out two campaigns of this kind in one year.

The matter coming as it did we had not had time to place it before our official boards for action. Hence I opposed such a move at this time. I had also conferred by phone with our pastor of First Church Decatur. He deemed it unwise to undertake a meeting this year. Our pastor at Austinville was not present to express himself.

As these three churches have a membership of more than 2,000 opposing I feel that the vote lacked quite a good deal of being unanimous. I am writing this that our action may be thoroughly understood, I think. However, there are times when a community should hold a great union revival. To hold such a one the churches engaged should have several months for planning and preparation. To succeed in a very large way it should be thoroughly union.

Respectfully,

GEORGE T. HARRIS.
